

The logo consists of the word "COSM" in a bold, white, sans-serif font, followed by "GENE" in a similar style. A stylized, multi-colored ribbon or DNA helix graphic is positioned between the two words, forming a bridge-like shape that connects them. The colors of the graphic transition from blue at the top to green and yellow at the bottom.

Version

Short
Version

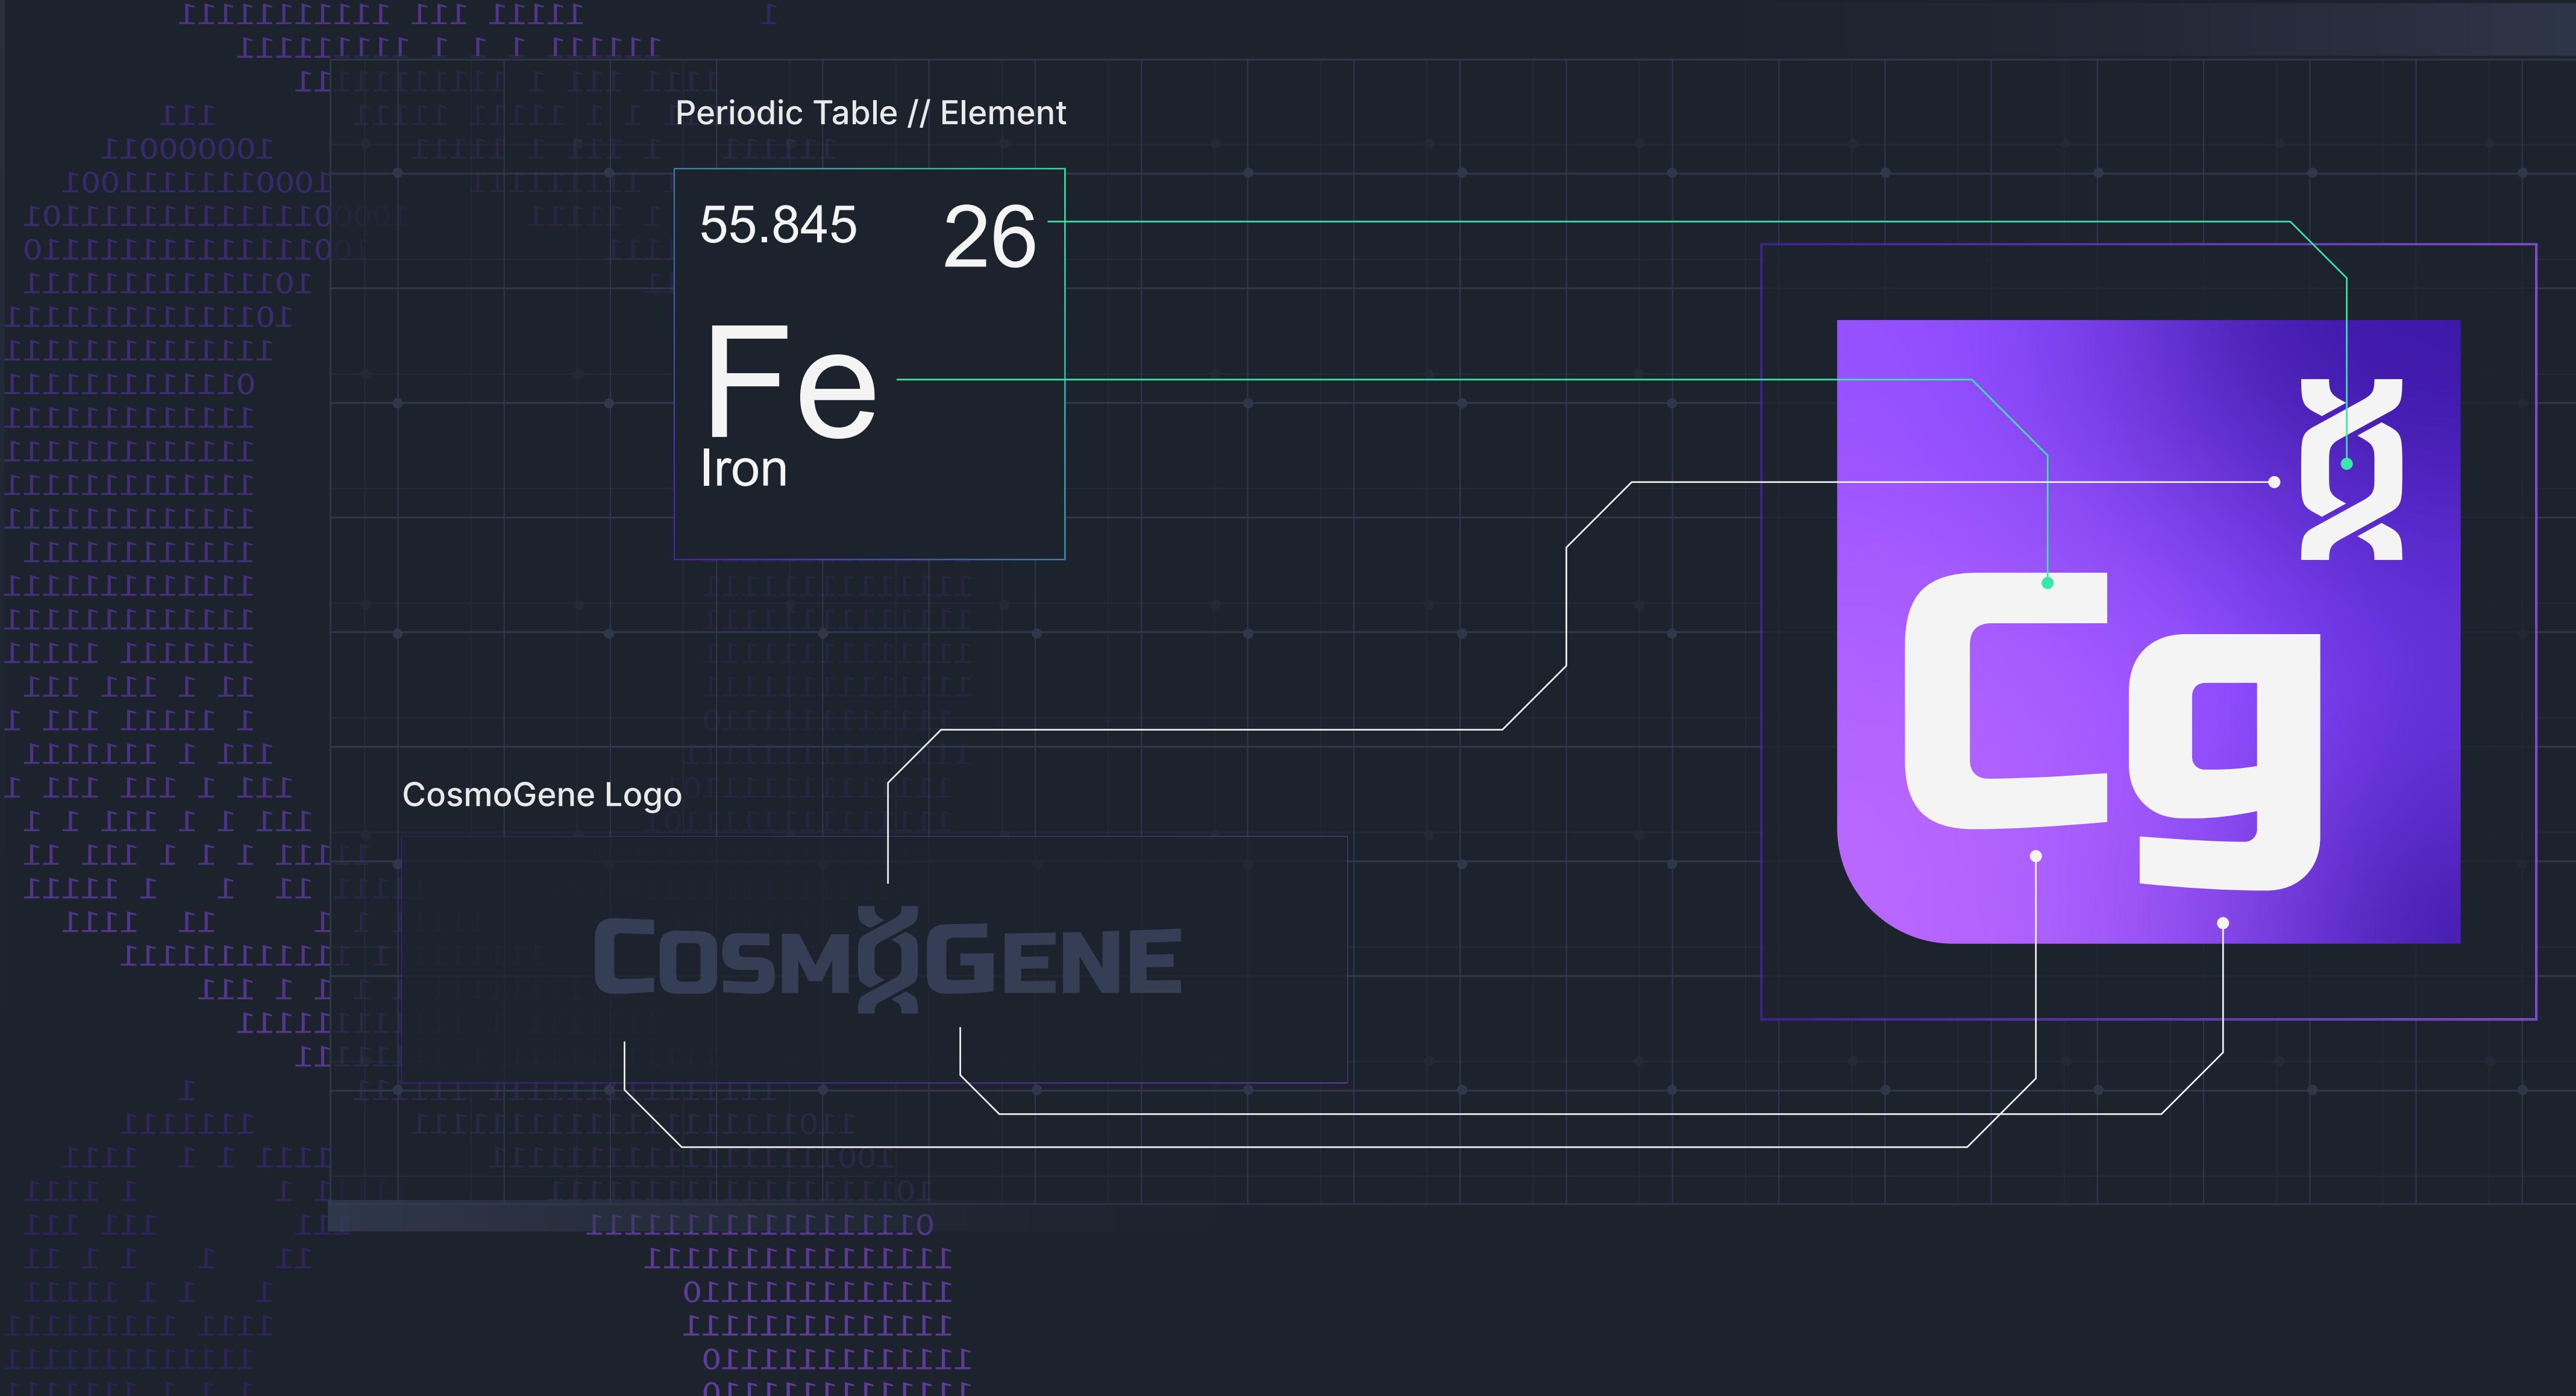

Short Version

The Short Version is inspired by the **Periodic Table**, specifically in the visual representation that the elements have within the table. The initials of **CosmoGene** are taken to represent the symbol and the **CosmoGene** icon takes the position of the atomic number.

Thanks to this we achieved a direct connection between science and the concept of **CosmoGene**.

Logo Simplification

COSMØGENE

Short Logo / Monochrome / Versions

xx

When the dimensions of the short version of the logo are too small, it is recommended to remove the **CosmoGene** icon from the composition, because in too small sizes the legibility of the icon will be lost.

Icon Uses

Icon Uses

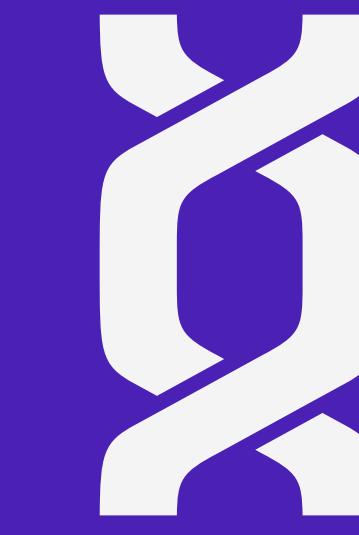

We can use the CosmoGene icon as an individual graphic element.
The use of colors for the icon may vary as long as it is not part of the
main logo “**CosmoGene**”.

***The colors of the brand must always be maintained.**

The icon contained within a box or circle can also be used for smaller applications.

3D
Version

The image features a large, bold, white sans-serif font word "GENE" centered in the frame. The letters are partially hidden behind a dark blue, semi-transparent rounded rectangular overlay. The background is filled with a dense grid of binary digits (0s and 1s) in a smaller, lighter gray font, creating a digital or genetic data theme.
